

IIHE Annual Meeting 2019

22 Nov 2019

9:15	IIHE general report	directors
9:45	Physics with CMS	Chhibra Simranjit Singh
10:10	Physics with IceCube	Simona Toscano
10:35	CMS Tracker Upgrade	Inna Makarenko
10:55	<i>Break</i>	
11:15	CMS GEM upgrade	Elizabeth Starling
11:35	R&D in radio arrays	Nick van Eijndhoven
11:55	SoLid	Petra Van Mulders
12:15	<i>Lunch + presentation newcomers</i>	
14:15	JUNO	Shuang Hang
14:35	Phenomenology activities	Aqeel Ahmed
14:55	LOFAR	Katharine Mulrey
15:15	<i>Break</i>	
15:35	Auger	Koun Choi
15:55	IT	Denis Dutrannois / Shkelzen RUGOVAC
16:15	Short presentations (each 10 min)	
17:05	<i>End</i>	

ULB-IIHE director
Prof. Laurent Favart

VUB-IIHE director
Prof. Jorgen D'Hondt

Interuniversity Institute for High Energies

since 1972

Physics at Colliders

CMS@LHC
H1@HERA

Future Colliders

Neutrino Physics

JUNO
SoLiD

Astroparticle Physics

IceCube
ARA
LOFAR
Auger

Phenomenology

Beyond the Standard Model

Instrumentation and Computing

Radar/Radio detection
DAQ systems
Silicon Tracking devices

A variety of research themes (some examples)

	Physics at Colliders	Neutrino Physics	Astroparticle Physics	Pheno	Instrumentation & Computing
EW & Higgs sector	x			x	
Beyond the SM	x			x	
Dark Matter	x	x	x	x	
Neutrino Oscillations		x	x		
Multi-messenger			x		
Sterile neutrinos		x	x		
Radar/Radio detection			x		x
DAQ Systems	x	x			x
Silicon Tracker	x				x
TIER-2	x	x	x	x	x

- ✓ An important 5-year VUB grant on **HEP@VUB** (connected theory-pheno-experiment on particle, astro-particle and astrophysics), 260k Euro/year (2018-2022)
- ✓ A 4-year Belgian **EOS program** (Excellence of Science, 2018-2021) on “The Higgs gateway to physics beyond the Standard Model”
- ✓ The **FWO International Research Infrastructure (IRI)** programme: for the period 2019-2022 (CMS: ~5MEuro; IceCube: ~4MEuro; budgets shared among Flemish universities)
- ✓ Construction project for the **CMS Tracker** is funded (10.4MEuro in Belgium in core cost)

Theoretical physics

- string theory
- holography
- cosmology

Prof. B. Craps
Prof. A. Sevrin

Part-time:
Prof. V. Balasubramanian
Prof. C. Blair
Prof. O. Evnin
Prof. L. Lopez Honorez
Prof. D. Thompson

Particle physics experiments

- high-energy colliders
- neutrino physics

Prof. F. Blekman
(Odysseus 2)
Prof. J. D'Hondt
Prof. S. Lowette
(Odysseus 2)

Part-time:
Prof. P. Van Mulders

Active emeriti:
Prof. S. Tavernier
Prof. W. Van Doninck

Astro-particle physics

- cosmic neutrinos
- dark matter
- multi-messenger observations

Prof. K. De Vries
(ERC Starting Grant)
Prof. N. van Eijndhoven
(Odysseus 1)

Part-time:
Prof. O. Scholten

Active emeriti:
Prof. C. De Clercq

High-energy astrophysics

- radio transients
- binary evolution
- gravitational waves

Prof. S. Buitink
(ERC Starting Grant)

Part-time:
Prof. J. Blommaert
Prof. T. Huege
Prof. K. Kolenberg

Guest professor:
Prof. D. Vanbeveren
Prof. J. Horandel
(ERC Advanced Grant)

Phenomenology

Prof. A. Mariotti

Simon Vercaemer [Commissioning of the SoLid experiment for the observation of electron antineutrinos at the BR2 reactor](#)

David Ndayizeye [Validation de la réponse du détecteur de neutrons WENDI-2 dans un faisceau de neutrons quasi-monoénergétiques pour son utilisation dans un centre de protonthérapie](#)

The ABC principle @ VUB : Avoid, Book an alternative, and Compensate

(in brief: <http://vubtoday.be/en/content/vub-aims-climate-neutrality-new-travel-policy>)

The ABC-principle: the 3 pillars of the travel policy

The travel policy is applicable to all work related trips by VUB staff, its students, researchers and guests and is based on three pillars:

AVOID | Don't travel if not strictly necessary

Use Skype or video conference tools when possible.

BOOK AN ALTERNATIVE | Travel by train

When train travel from Brussels-Midi takes less than 6 hours, this mode of transportation becomes the default choice. VUB presents a [city list](#) with an overview of destinations that are always available through train travel. The city list is also applicable to parts of work trips that require a stop-over, more specifically on transport to airports that can be reached in less than 6 hours. Air travel to these destinations will exceptionally be allowed following an acceptable motivation and clearance from a superior staff member. In the case where train travel from Brussels-Midi takes between 6 and 8 hours this option is still highly recommended. That is why the city list also includes these destinations with preferred train travel.

The ABC principle @ VUB : Avoid, Book an alternative, and Compensate

(in brief: <http://vubtoday.be/en/content/vub-aims-climate-neutrality-new-travel-policy>)

COMPENSATE | CO2-compensation of emissions through air travel

For air travel in light of a VUB assignment or project a default contribution to compensate for the emissions of greenhouse gases will be added to the travel cost. These compensation contributions will only benefit certified climate projects, with climate credits rendered per effectively reduced ton of CO2.

The ABC principle @ VUB : Avoid, Book an alternative, and Compensate

(in brief: <http://vubtoday.be/en/content/vub-aims-climate-neutrality-new-travel-policy>)

City list for train travel

Duitsland

Aken	Bochum	Bonn
Bremen	Dortmund	Düsseldorf
Essen	Frankfurt	Freiburg
Göttingen	Hannover	Heidelberg
Jülich	Karlsruhe	Keulen
Mainz	Mannheim	Münster/Osnabrück
Nürnberg	Paderborn	Saarbrücken
Stuttgart	Trier	Tübingen

Frankrijk

Arras	Bordeaux	Brest
Calais	Caen	Deauville
Dijon	Grenoble	Lille (Rijsel)
Lyon	Le Havre	Le Touquet
Marseille	Metz	Montpellier
Nancy	Nantes	Parijs
Reims	Rennes	Strasbourg

The ABC principle @ VUB : Avoid, Book an alternative, and Compensate

(in brief: <http://vubtoday.be/en/content/vub-aims-climate-neutrality-new-travel-policy>)

City list for train travel

Groothertogdom Luxemburg

Alle bestemmingen

Nederland

Alle bestemmingen

Verenigd Koninkrijk

Ashford	Birmingham	Brighton
Bristol	Cambridge	Cardiff
Durham	Leeds	London
Newcastle	Oxford	Sheffield
Southampton	York	

Zwitserland

Basel
