

VBF Analysis

- Familiarized with the weaver framework
- Prepared basic setup to use weaver for VBF analysis:
 - Created configurations files to run different models on our ROOT files
 - Can run on MLP, DeepAK8 and ParticleNet

Variables used:

- PF_[pt,eta,phi,energy]
- VBFjet_[pt,eta,phi,energy]
- nonVBFjet_[pt,eta,phi,energy]
- PF_[pdgid,charge]

Around 50k events, 20 epochs
