What's new this year?

3 things

1 - Tech support
2 - Databases for inventory
3 – Sefety instructions cards

How do we handle support requests

To contact tech support

Find our email in Practical Guide for Users

tech-support-iihe@listserv.vub.be

I need to 3D print a part	**IIHE Technical Support**	tech-support-iihe@listserv.vub.be
I need technical advice	**IIHE Technical Support**	tech-support-iihe@listserv.vub.be
I need to borrow a scope, multimeter or other small equipment	**IIHE Technical Support**	tech-support-iihe@listserv.vub.be

The second new thing

Database for inventorying components and tools

Databases provide an inventory of what we have and where it is stored.

Tools

- PSU
- Scopes
- Wrench

Components :

- Mechanicals
- Electronics

The last new thing

Safety instructions for the use of machines in the mechanical workshop

Safety instructions cards

- Cards are on all machines.
- It tells you what protective measures to take for each one individually

What’s for the futur ?

- We expect improvment for our resin printer
- Databases for inventory should improve our workflow.
